

Technical drawing of a tapered structure, likely a chimney or tower, showing dimensions and labels. The structure is defined by a dashed blue centerline and solid black profile lines. Horizontal cross-sections are indicated by blue lines with dimension values to the right. Vertical dimensions are shown on the left, and a horizontal dimension is at the bottom.

Vertical Dimensions (Left Side):

- Total height: 12'-3.17"
- Height to first cross-section: 10'-0.00"
- Height to second cross-section: 8'-0.00"
- Height to third cross-section: 6'-0.00"
- Height to fourth cross-section: 3'-1.76"

Horizontal Dimensions (Right Side):

- Dimension at first cross-section: 5.26
- Dimension at second cross-section: 8.66
- Dimension at third cross-section: 10.87
- Dimension at fourth cross-section: 1'-0.01"

Horizontal Dimension (Bottom):

- Base width: 2'-0.04"

Labels:

- Label 'E' is located near the bottom right of the structure.
- Partial labels 'D', 'E', '6', and 'F' are visible at the top right edge.
